### **DIGEST**

In 1983, under the Licensed Dietitian Act, the profession of dietetics was licensed. This Act is administered by the Texas State Board of Examiners of Dietitians (board), an independent state agency administratively attached to the Texas Department of Health. Licensed dietitians provide services including nutrition assessments, planning, counseling, care management, and evaluation as part of the health care delivery team, usually upon the order or referral of a physician or other practitioner. An individual who wants to qualify for licensure must have a baccalaureate degree in nutrition, dietetics, or a similar degree program from a regionally approved college or university, a supervised internship under the supervision of a licensed dietitian, and passed a state-administered or approved licensure examination. S.B. 1525 will add "medical nutrition therapy" to the services provided by a licensed dietitian, and will authorize the board to determine the qualifications of licensees that provide nutrition services.

### **PURPOSE**

As enrolled, S.B. 1525 adds the definition of "medical nutrition therapy" to the services provided by a licensed dietitian, and grants rulemaking authority to the Texas State Board of Examiners of Dietitians.

### **RULEMAKING AUTHORITY**

Rulemaking authority is granted to the Texas State Board of Examiners of Dietitians in SECTION 2 (Section 6(d), Article 4512h, V.T.C.S.) of this bill.
